

# Literacy Rotations - Week 6

## Independent Learning Task

### Learning intention:

To learn about the history of bushfires in Australia and create a timeline highlighting the impact of these bushfires on Australian communities.

### Your task:

Research/timeline task. You need to investigate Australian bushfires through history.

In your 'big book' (remember, using your big book means producing your BEST, quality work!), create a timeline highlighting ten bushfires that Australia has experienced. Ensure that you include information about each bushfire, such as the date/year, where it took place, who was affected, how many people were killed/injured (if any), and any other info you believe is relevant.

Present your timeline in chronological (time) order and in an attractive, appealing, neat way.

Use the attached information sheets to help with your research.
