

# Literacy Rotations - Week 6

## Independent Learning Task

### Learning intention:

To improve the ability to use adverbs, adjectives and other features of speech (such as similes and metaphors) in a piece of creative writing to describe the impact of a natural disaster (bushfire or drought).

### Your task:

Descriptive writing. Experiencing a natural disaster can be a deeply traumatic time and could cause you to go through a wide range of different emotions/feelings.

Your task is to write a creative narrative using a bushfire or drought as your major topic. The writing should be EXTREMELY descriptive, mainly focusing on the emotions involved. Your aim is to use as many adjectives/adverbs, similes, metaphors, etc., as possible to make your writing more engaging and descriptive.

Refer to the teacher examples to see how you can give more detail and make your writing more engaging.

Be creative, expressive and descriptive!
