

# Literacy Rotations - Week 7

## Independent Learning Task - Free Choice Writing

### Learning intention:

To further develop personal writing skills through a writing program that encourages freedom of choice and a greater level of engagement with your writing.

### Success Criteria:

Your success on this task is based on your ongoing improvement in all written pieces.

### Your task:

Use this session productively to continue on with your free choice writing. Remember that free choice writing sessions are to be completed QUIETLY and INDEPENDENTLY - there should be no talking to anyone else around you.

Be prepared to share your writing with the class in 'Author's Chair' at the end of the session. Please remember to ask the rest of the class for feedback about a particular part of your writing. It could be something like "Does this make sense?", or "Do the words I've chosen sound right in this story?", or "Does anyone have any suggestions for how I could improve this writing?", or something completely different... it's up to you to think of something!
