

Write down a list of all the fractions you know.
From this list choose your favourite fraction.

Once you have chosen your fraction, answer the following set of questions about "your" fraction.

- Write down everything you know about your fraction.
- Write down the decimal equivalence of your fraction.
- Represent your fraction on a number line.
- Represent the decimal form of your fraction on a number line.
- Find three other fractions equivalent to your fraction.
- Represent your fraction as part of a metre.
- Cut a piece of wool or string that is this long.
- Record the length of the wool in centimetres.
