Last week, Matt and Aaron each donated money to charity. Aaron donated \$945 to help endangered animals, and Matt donated \$688 to save the rainforest. How much did Betty and Robbie donate in all?

Johnny got paid \$1,250 for his job. He spent \$80 on his phone bill, \$145 on his groceries and \$320 on new clothes. How much did he save from his pay?

Aidan had \$150, Matt had \$350 and Aaron had \$100. If they combined all of their money and then shared it equally, how much would they each get? If they did this, who gets the best and worst deal?
